REAL ESTATE AND BUILDING.

Carter, in strolling on the wharf, saw the siri sitting on a pile of lumber talking to the other man, and, in a fit of jealousy, he titted the top board and threw them both into the river. The man serambled out and left the girl to drown. Carter sprang into the river, possibly to save the girl, but be has not been seen since, and he was probably drowned. Coroner Fatterson was called to investigate the case and he gave a certificate of accidental drowning.

Philip Pratt Found on the Railron Track Near Waterloo. The Improvements that Have Reen Made at Piney Point.

A grand transformation has taken place at Piney Point, as the two hundred and fifty people who went there for the opening of the new hotel saturday night will testify. In place of the old hotel is a new one, and such a one as would be a credit to any of the summer resorts. The hotel is not the only improvement, either; the grounds have been improved, new hoats put on the lake and, in the river, a livery stable has been added and the beach has been improved. As a gentleman who went down there Saturday said to a Chitter reporter. "We didn't know the place when we landed. From the old tumble-down hotel hat made it an eye-sore two or three years ago to the new one that graces it now was such a great change that it was some time before we could believe we were really at Piney Point. The people went down on the steamers Excelsior, Jans Mosely and John W. Thounson. The latter had been chartered by Mr. Wash, B. Williams to take those who could not leave on the earlier boats. When all the boats had arrived a grand banquet was served in the large dining hall, and that everything good to eat was there is pretty well proven by the fact that many persons did not leave the table until 4 o'clock Sunday morning Yesterday was passed in sailing, rowing riding, bathing and fishing. All day long Professor Cardello's string band farmished muste.

Among those who were there were noticed Tinck Near Waterloo.

The mangled body of a colored man named Philip Pratt was found at 4 o'clock yesterday morning on the railroad tracks at the crossing of Waterloo Station, between this city and Alexandria. The throat was cot and the shull mashed in, and the body was laid scross the tracks to give the impression that the deceased committed anicide. Pratt was an inoffensive man, and was not in the habit of getting druck, and the built is that he was murdered for the few dollars he received for his week's work in the brieklystids. The murderer or murderers have not been discovered as yet.

There were three colored men graduated from the Columbia Law School this year—Messre, George L. Pryor, Theolore H. Green and R. B. Bagby. Mr. Pryor had already been admitted to the District bar upon examination before his graduation, and Mr. Green won the second prize for his essay on "The Element, Force and Effect of Intent In Law."

Mrs. Hannah Patten, widow of the late Louis Patten, is said to be past recovery from an attack of rheumatism and the infernities of age. Six reselves with Mrs. Lewis, 426 M street northwest many churches of other denominations held appropriate services. At the Metropolitan M. E. Church the infant class sat upon raised seats upon the platform, and the church was made attrastive with flowers, plants and singing birds. The exercises consisted of recitations by the pupils and songs. At Fletcher Chapel there were similar exercises both morning and evening. The exercises both morning and evening. Death of Sergeant Hughes. Sergeant Joseph H. Hughes of the Fourth Precinct, South Washington, died quite undenly about 5 o'clock on Saturday evening. He had been under the care of Police Surgeon McKim for a long time, and on Saturday about 4 o'clock be telephoned the Surgeon to know if he could take a chort run down the river on an excursion steamer. He got the permission, and on his way to the boat he was stricken with a bemorthage of the lungs and fell on the street. He was removed to a residence near by, and died before medical aid could reach him. His funeral will occur to morrow at 2 o'clock. Sergeant Hughes had been on the force over twenty years, and he had been a sergeant about twelve years. He was an efficient and brave officer, and much esteemed by his superiors and the men he was over. ng. He had been under the care of Police Metropolitism M. E. While this class was large in number the capital represented by it was comparatively small; and the full has been more apparent than real. Prices have nowhere receded The large operators are as active as ever, and havy transactions continue to be made at former or higher rates. Until recently the principal boom has been in property in the northwest, and on the outskirts of that see to not the vicinity of the residences of President Cleveland, Secretary Whitney, et al. Of late more attention has been given to Capitol Hill property, where the demand is tow greater than ever before in the history of the real estate boom. The property known as that of the Philadelphia Company, embracing upwards of a million square feet, lying mostly adjacent the Lincoln Park, the largest of the parallelogram parks and destibed to be the finest of them all, is now, for the first time since 1807, offered for sale.

The property will doubtless be taken by a syndicate, with the means and a disposition to make their investment profitable by the development of the lands now lying almost as commons. It is understood that some prominent New Yorkers have recently invested considerable capital in land adjacent to Lincoln Park, upon which fine improvements are soon to be made. It is said that a very prominent journalist of New York city is a member of a syndicate holding a large area of land in the neighbouthood. Congressman Archie Biles of Brooklyn, who has been examining Washington real estate aver since Congress adjourned, says he will back his judgment with his money that the boom in the eastern part of the city is a substantial one.
